

It's time to Shift Up

Transmission@GT

Our streamlined services platform

Doing business with GT Insurance is easier and more efficient than ever.

Transmission@GT is the first in a series of major digital projects we're currently undertaking to help make GT Insurance the agency of choice for you and your clients now, and into the future.

Shifting Up

Transmission@GT features a wide range of new self-service capabilities. With faster quoting, simpler referrals and instant access to the documents you need to arrange cover, the platform enables you to serve your clients better than ever before.

Quicker Quoting

A clean interface and additional functions – such as Word versions of quote information – allows easier data entry into your broking system, reducing the time and effort needed to provide quotes. You'll be able to focus on finding the right solutions for your clients.

Online Binding

The platform allows you to bind cover completely online (except for referrals). We've also added the ability to generate a variety of key documents on the spot, allowing you to serve your clients faster than ever before.

Easier Referrals

Referrals are automatically sent direct from **Transmission@GT** to your dedicated underwriter with all the information attached. This saves you time and allows our underwriters to work on tailored solutions to meet your clients' needs.

Superior Self-Service

Transmission@GT also allows GT Insurance broking partners to generate their own claims histories for non-aggregate policies and produce Certificates of Currency on written business. It's all part of helping you get what you need, quicker.
